Comments: This is a beautiful, untainted part of our native forest land. It would be a shame if we allowed big business to come in and bastardize it. As someone who both loves capitalism and the great outdoors I am decidedly against this project and will be heartbroken if we lose what makes the Holland Lake area special - the fact that its still reasonably wild, relatively quiet, and the awesome history in the original lodge and rustic cabins at Holland Lake. As a Montanan I needed to make my feelings known. This is a special place for me and my family and we really enjoy spending time there in the summers. We will be deeply disappointed if you allow it to lose what makes it special. I hope to be continuing to bring my young children to the area for the next 10+ years. Don't let us down.
