Comments: I do not encourage or want Holland Lake to be expanded and made into a playground for the wealthy. It's a beautiful lake the I feel they diminished it's natural beauty when they allowed motorized boats on it. Can't we just leave nature alone to be cherished and respected instead of building ridiculous man made Lodges that are only there for those that can afford it. Next you will want to change the waterfall! I vote NO to any new building on Forrest service at Holland lake!
