Comments: I do not live in Montana but I am avid camper, hiker, backpacker and am extremely concerned when forests and beautiful land and historical building are disrespected by turning it into a public amusement park for the rich.

Growing up we didn't have money so that outdoors was our playground and our escape. We learned to respect it and treat it properly. We expect the rich to do the same by leaving it as is and allowing a beautiful scenery to be left alone for those who will bask in the beauty and solitude it provides.

Beautiful places aren't just for the rich and aren't there for them to monetize and destroy the peace and beauty that is free to so many!

Please stop this.

Thank you for listening!
