Comments: The town of Condon Montana is not the venue for a monstrous resort nor the traffic it will bring. The town does not want it. The state of Montana does not want it.

What is further upsetting is how this was "rushed"...only 21 days given for us to protest against a project of this magnitude? Not OK. I used to live in Eldora Colorado and POWDR came in there and fought the town for years and got what they wanted. Disgusting. We need them gone! Not here!
