Comments: I have had the pleasure of riding horses into the Bob Marshall Wilderness by way of the Holland Lake trail. As a born and raised Montanan, I appreciate the amazing gifts we have here in our State. We are very lucky to be here, however, each of us that chooses to stay "home" in Montana, have sacrificed the opportunity to earn more money and more than likely have a more stable financial life. But we choose to do so knowing we get experience Montana daily. With that, allowing a corporation to use such a scenic and historical place such as Holland Lake, to build a resort that will only cater to the wealthy, is sad. I personally don't want to ride up the Holland Lake trail and look down on a resort filled with people who have money and don't appreciate the area the same way I do. I am very much against the proposal to allow this lease to happen.
