Title:

Comments: I am totally against this project!! This is going to ruin Holland lake and the serenity of the surrounding area. Not to mention wildlife. This is being built for rich people who think they want to come to Montana but still want all the luxury they are used to! This is not what Montana is about. We are about being in nature, hiking and seeing wildlife ( if they choose to let us see them) and the beauty Montana has to offer. We don't need this area to turn into another Whitefish! Keep out of state from trying to turn Montana into what it is not!!
