Comments: It is my understanding that the proposed Holland Lake Lodge Facility Improvement & Expansion will include 32 new buildings and the removal of most of the current historic buildings. Holland Lake is not a large lake, and it is already overrun with visitors (local and out-of-state) for the summer months. I am not against some improvements and additions, but the current plan will overtax the area with traffic, people, and lake and hiking activities. I encourage the Forest Service to either deny this project OR, at the very least, reduce it in scope. Just because they CAN build 32 buildings and house hundreds of visitors, doesn't mean they SHOULD.
