Title:

Comments: I have lived in Mt all of my life. 52 yrs. My family has had a cabin on placid lake since the 1950s. Placid lake has gone from a quite little lake, to a place with million dollar homes, people around 24 7 in the summer and it is obvious the impact it has had on the marine life. Currently seeley lake is dealing with a hotly debated sewer issue. There is no way a resort the size of which they want to build on Holland will not impact that lake and water. I am strongly against this. And cannot believe anyone of good conscience and care for rural montana would even consider it.
