First name: Nicole

Last name: Barnett

Organization:

Title:

Comments: The deforestation and the destruction of the landscape will ruin this beautiful land and the home that it provides to countless wild animals. This is a causeless expansion driven by greed and is completely unnecessary. The lodge can receive its "TLC" without the disruption of 23,300+ acres. Most importantly, if the intention is "to preserve the spirit and integrity of what is here," then it should remain as it is.
