First name: Summer

Last name: Allen

Organization:

Title:

Comments: It would an injustice to what Montana stands for to allow an out of state corporation destroy this historic lodge. My grandfather started bringing his family to Holland lake before the lodge or campgrounds even existed. 5 generations of our family have grown up spending time each summer on the lake. We have brought new born babies, had marriage proposals and spent almost every one of my 47 birthdays on the lake shores. We have taught our children and many other children about the beauty and nature Montana has to offer. We have learned to fish, water ski, knee board, inner tub, canoe, paddle board, proper etiquette for bear country, and spent many hours staring at the stars. Haven't out of state people ruined enough of OUR Montana? For goodness sake, they come put buffalo in their cars, walk on protected land and mostly disrespect the people who have grown up in Montana. We don't need another Big Sky or Whitefish! There should still be lakes and lodges for local people to enjoy. We need to keep Montana, for Montana! Quit turning us into a mini California!
