Comments: I am writing to express that as a Montana resident, I am not in support of the proposed expansion plan for Holland lake area. This plan does not represent the values or ideas that Montana residents hold, and the benefits will not outweigh the costs to our beautiful state if this plan goes forward. As a life long Montana resident, I do not support this plan and ask that you please listen and consider what the MT residents speaking out against this plan have to say. Please help protect the beautiful and historic Holland Lake area.
