Title:

Comments: I think that Montana has enough pollution from resorts to deal with right now. Look at what Big Sky resort has done to the Gallatin River! We don't need more greedy corporate land developers spoiling our pristine wilderness areas for money. Tourism here and around the globe has caused enough damage. The dollars and jobs contributed to the local economy are not worth it. We need better jobs in Montana than what the service industry can provide. .

Please say no to more billionaires corrupting our beautiful Montana for their own greedy profit.

Don't sell out Montana and her residents.

Thank you.
