Comments: I would like to comment in opposition of the Holland Lake Lodge Facility Expansion. I believe that virtually demolishing the existing facility and then building 32, or whatever the exact number is, new structures is not in the best interest of the Holland Lake area. I would understand if the Lodge would like to update their existing structures for safety or in the case of extreme disrepair, replace a structure, but I am very much against the expansion. Holland Lake and the surrounding area and mountains are a special place. Expanding the lodge's facilities dramatically like this will very much change the area, I believe, for the worse. This is public land that the Lodge is using under a lease and therefore the thoughts and feelings of the public must be listened to for how they would like their land to be used. Montana is exploding with tourism and everyone is trying to get their piece of the money. Please, let's not sell out, let's leave Holland Lake alone and preserve one of the special places we have left.
