Comments: Holland Lake potential development:

I have great love and gratitude for our rural and local lakes. Holland lake is such a special and preserved gem and holds a special place in my heart and 99 percent of Montanan's. I don't want to see Montana slowly turned into a playground for only those who have been financially blessed. We all need these quiet, historic, natural places. This would ruin the peace and quiet of Holland lake which is really only used during the 3 summer months out of the year. We don't want any more buildinds, keep out forest and land natural. We need less development, not more.
