First name: Jacob

Last name: Rogers

Organization:

Title:

Comments: The wealthy benefactors of this organization have no business destroying this long lasting ecosystem and displacing thousands of wildlife. Do not allow this to happen. The massive parking lot alone will cause an increase in temperature and negatively affect the land around the property not just the property itself. There will be a ton of negative fallout of the construction alone as well as the excessive number of visitors. It will be only filled with wealthy patrons and none of the locals could afford to even visit. This is part of a mass gentrification process that will drive out locals to make room for only the upperclass. Keep the last of this country's wilderness wild.
