Comments: No one that truly loves Montana wants this. This area is for locals in and around Seeley and through out Montana. This would turn this beautiful area into a place for outsiders with money to come. It would force the regular Montanan who has spent years coming here, like many many people I know, to not even be able to get here because of cost. It will turn into a place full of litter and people who do not truly care for the outdoors. This would completely ruin this area for us and for many other generations. This would be a truly regrettable decision that would make this area not worthy of a visit. It will end up being like glacier, no one can get to it unless they have a permit or a bunch of money. What a disappointment.
