Comments: The Holland Lake expansion or whatever it is they are requesting, is definitely a HUGE HELL NOOO. Using for example, if we Montanan's wanted a huge ass Walmart in the middle of the Wilderness, we would ask for it, tell these rich pieces of crap, stick it up there Arse... Our animals are already being displaced because of land developments an other things, and our grizzly bears are already on the loosing end of things. Respect our land, respect the lands, STOP acting like Invasive Species.
