Comments: Hearing that they want to change Holland lake into another tourist trap breaks my heart. We have already lost so much Montana lands due to out of stators. When is enough enough I can't even go outside enjoy the quiet outdoors anymore without hearing people Hooten and hollering. I have to fight my way to park my boat in the boat launch because there's so many people wanting to use their boats on Flathead Lake. Swan Lake is so small you can't even enjoy fishing it in the summer too many wake boats. My husband and I leave flathead Valley and go to eastern Montana just to get away and fish in a quite. A few short years ago we never had to do that. If you let them do this it's just taking more Lakes and water access away from us locals. I don't know one local that wants this to go through.
