Title:

Comments: Please keep Montana the Montana that majority of us were raised in or moved here for- off the beaten path!! We do not need more tourism and the ruining of more of our outdoor spaces. This area also will need many amendments either fixed or put in place if you put a lodge here. And as MT resident, I am tired of pitching in for road construction when majority of traffic is from out of staters. Please reconsider allowing this lodge in an area that essentially is undiscovered by disrespectful tourists compared to many other areas in the state. They can keep Glacier. Let those who live in our beautiful state keep at least a few spots to ourselves. It's not about "sharing" it's preserving!
