Comments: Please do not allow Holland lake to become a commercial stop for people who will not respect that gorgeous area. It is a crystal clear mountain lake that deserves to be protected and respected. A huge influx of tourists dollars to that lake will only damage it's pristine nature. Please keep it what it has always been a true Montana treasure. My father first took me to Holland lake when I was a child. I have taken my daughter. One day I would like to take my grandchildren there as well. Please preserve it so that's a possibility. With a very hopeful and gracious heart I thank you for your time

Danielle Perrine
