Comments: Holland lake is a hidden Montana gem that I have enjoyed for the last ten years. What makes it so special is not only that it's absolutely gorgeous, but it's not over run with tourists and is never very busy. There is one little cabin on the lake that's great to get a drink or stay for the night, and that's all we need. If all of these cabins are built on Holland lake it will completely change everything that makes it so special. Please preserve one of the most special lakes we as locals have, and not give into outsiders wanting to take it over. Is locals are HAPPY WITH WHAT WE HAVE! We see no need for it to change. Please take us into consideration.
