Title:

Comments: This lake has been apart of my family since 1981. It is where we come to get away from the crowd, and enjoy our peaceful remote summers. It is my only escape from reality and the one of the only things that keeps me going. Holland lake has so much magic within it, and the wildlife around it along with the serenity and the peace of it all. If we expand the camp ground it will become trashed, loud, too packed to boat and fish, and the wildlife lose their homes. Montana is where i first learned to water ski, ride horses, drive a boat, inner tube, and so much more. It is a family gathering, and the only time of year my extended family is together. People on the campgrounds already don't know how to respect and take care of the lake, and it has already become so crowded. It will lose its' magic and specialness to it that brings my family back every year. Please do not expand the campground even more. You don't understand how important Holland lake is to my family and I. Holland lake will become too dangerous with everyone on the lake, and will attract animals from the food being brought leading to many accidents that we don't want. Please please please reconsider this bad idea before it is too late.
