Comments: I have never stayed at Holland lake lodge but have been a frequent camper at Holland lake campground and also hike in the area. The lodge in its current state fits the area and the valley. Yes, it could probably use a few upgrades, but to make it much bigger would have too great of an impact on the lake. There is already too much development on the south side of Holland lake - to increase the footprint of the lodge would be criminal. Our lakes, streams, mountains and meadows in Montana are being lost at an ever-increasing rate. Please do not allow this beautiful little lake to also be corrupted and destroyed to make someone a quick buck.
