Comments: I am not for the building of a lodge type resort in the Holland lake region here in Western Montana. This Beautiful scenic lake and area needs to stay true to the area that it is within. Reading on Facebook that the resort company wants to build a massive resort with parking and outbuildings is not ok with what Montana is. Also reading that they want to tear down old and historic buildings is something that needs to be stopped. This area is one of the last real rural Montana areas that hasn't been ruined by development of some sort. This location needs to be preserved to allow people local tourist or whatever they might be a chance to visit nature like it is supposed to be. Please do not allow the development of our beautiful lake and wooded area so a large corporation can make money from out of state people forcing the locals out. This has become a problem in this town, area, and state. We Montanas need to say enough and stop this. We love our outdoors and want to preserve them as much as possible. I say no to any type of development. There are plenty of other places to do what they want to do. Don't allow this to happen in the Holland lake area here in Western Montana.
