Comments: This proposal is just heartbreaking and sickens me. This small town lake and entry into our marvelous Bob Marshall Wilderness, is no place for a new resort town. I have found solitude and peace on Holland Lake year round and am not ok that I won't get to share that with my kids as they grow. I beg of you to fight for this small lake and to protect it from losing itself to the big tourist world that has already taken over enough of sacred spaces in Montana. Some of Montana simply deserves to be kept small.
