Comments: This project is not beneficial to the American people. The funds wasted on both tearing down and then over building on this historic resource are better used we ksewhere. This is a classic case of if it's not broken, don't fix it. Shame on the forest service for using tax payer monies on an unnecessary project. Not to mention all the funding for the environmental studies that would precede this I'll thought out plan. Leave Holland lake in peace. No to this project.
