Comments: This is horrible, the lake is too small to have all of these people, and it will lose everything nice about it. There will be so many accidents, prepare to get sued. You cant materialize every bit of land you get your hands on. Think about the environment, think about people, think about ANYTHING but money, and how much you are destroying, not only on the lake, but for all of the locals who have been apart this lake and it being our second home for decades. This is not ok, we are begging for the old holland lake back.
