Comments: The process to approved this project seems to have moved quickly behind the scenes before letting Montanans know about it. I stand firmly against this project and the continued commercialization of our recreational areas where all are able to attend. This looks like an attempt to build a playground for the wealthy tourist and leave MT and those of us who've lived here for generations in the dust. Leave it alone and leave it up to Montanans not some random unheard of company from Utah.
