Comments: Please do not make any decisions until a FULL environmental assessment has been completed.

This resort that is proposed does not fit the character of the area and does not do anything to improve the experience of those trying to utilize the public land. There is not staffing to accommodate such a lodge and there is no need for such a large and imposing set of buildings as well as the loss of so many full grown trees on the site. Making improvements to existing buildings and expanding the offerings on a smaller scale is appropriate.
