Comments: Please listen the public outcry to stop this over development. There are so few places left in our country like Holland Lake. It has a huge positive impact on our population's health and well being.

The beauty of Holland is special to so many Americans, exactly because it has been allowed to be in harmony with nature.

This massive private investment project will ruin yet another one of our last quiet places and cause irreversible distress. Holland is far to special and too important ruin and sell off so that a few people can get richer.
