Comments: Please Please don't approve this project, My family are multigeneration residents of Montana and Holland lake was always a favorite place because of the feeling of stepping back in time. As this was a special place for our family it holds a place in our hearts as both my deceased brother and father are a part of that lake. They would adamantly oppose this project. Now this will mean that when we go to visit them we will no longer have the solitude and peace that Holland lake affords as it is now. Please leave well enough alone and let my family continue to be able to cherish this special place.
