Comments: I think this is horrible for our state. Every out of state entity is buying up our land and transforming our state into a over populated eyesore.

Even our new property management are now from Washington and don't care about us native montanans and a about money. They raised our rent twice in 6 montgs. This place I live is now a drug infested out of staters dream. See a bunch of California plates. And now the apartments look like crap.

So in ending.... we don't need more out of staters crap littering/ defacing our beautiful state anymore!!!

Holland lake is/was such a beautiful place. It already has a lodge there. We don't need another money hungry out of stater ruining it.
