Comments: Dear sirs,

There are fewer areas that regular Montanan's and out of state people can go to to enjoy our beautiful Montana. Seeley Lake has no motels that are open to the public other than Tamaracks because Paws Up has privately used them for their employees for their posh resort. Yes people can camp, but not all can. People can rent private homes when they can find them. we do not need another exclusive resort we need this to stay as a site for the regular man to enjoy as they have for generations.
