Comments: Please leave Holland Lake as public land. What a special place. What a special hike that is accessible to even beginner hikers that provides one of the most beautiful mountain scenes in all of Montana. What will become of our beloved Montana if these wild, special places keep getting sold for the rich who have no heart invested in our one of a kind state? If they want to see Holland Lake and the Mission Mountains, tell them to "take a hike"--literally. They're already welcome to come. But please don't let them become the only ones to enjoy this wild beauty. Consider a Montana that is not owned or accessible to the people who know it and love it the most. That would be a tragedy on a massive scale.
