Comments: My wife grew up in Montana during her summers on her family ranch near Yellowstone. Because of our love for Montana, and our special love for Holland Lake Lodge, we were very close to purchasing the Lodge when it was up for sale by Christian, the owner, in 2020. Eventually, we were unable to come to an agreement. Had we purchased the Lodge, we would have maintained its beautiful integrity, history, layout and structures. I wonder how Christian now feels about selling this exquisite Lodge to a company that wants to destroy his 24 year journey and legacy as its owner? My wife and I are deeply saddened that our purchase did not go through as this type of massive development would have never occurred under our ownership. THIS PROJECT SHOULD BE STOPPED for the sake of the wonderful people who live and recreate in the Swan Valley. And it SHOULD BE STOPPED for all the environmental damage (200 trees to be felled?) this project is destined to cause. We hope this disproportional resort development project is STOPPED IN ITS TRACKS. #savehollandlakelodge
