Comments: Hello,

I would like to express my opposition to the project on Holland Lake. This area of our Forest Service land has been a quiet home to Holland Lake Lodge since the 1920's. While this means that, yes, structures and lodging has been at this location for a long time, it does not mean that this new proposed project should just be pushed through. The whole feel of the area will be completely different and bring more people, pollution, and environmental impacts to an area that is desirable to visit, hike, and stay at precisely because of the absence of these things. Please don't commercialize our forest land to such a degree that we lose what attracts the citizens of Montana and other states to this area in the first place. There are plenty of other less pristine places to lodge people in great numbers within our state. Thank you.

David E. Morris
