Comments: Please do not approve this project. Leave some places more rustic and somewhat difficult to access. Don't create another fancy hotel for wealthy out-of-staters, leave some places for locals to enjoy and fish and hike and paddle without having to be wealthy. Building something fancy and new is not an improvement; and once it is done you will never have this beautiful place back the way it was.

"...You don't know what you've got until it's gone. You pave paradise and put up a parking lot"--Joni Mitchell
