Last name: Roberts

Organization:

Title:

Comments: I adamantly oppose the continuation of this project. I think you would be hard pressed to find any native Montanan that would agree to an out of state developer coming and turning a beloved natural space into a greedy capitalist profit-farm. It is even more embarrassing that a local group such as WGM would support this kind of intrusion. Listen to the thousands of comments expressing their disdain and disgust for this project and shut it down.
