Comments: Hello,

I am a Forest Service employee for the West Fork of the Bitterroot. I work for the FS because I hold a love for the forest and want to protect it for generations to come. I fell in love with the outdoors through hiking. My first ever solo hike was up at Holland Lake. What I love most about Holland Lake is how is it a hidden Montana gem. The locals know about it, but it's relatively quiet. There are cabins, but they are hidden from view when hiking. Please don't expand on Holland Lake Lodge. Leave it wild, rustic, and scenic. People can enjoy the area without a large lodge or restaurant. Don't ruin this Lake. Please.
