Comments: It is very sad that our old town charm and long history is slowly going away, all due to people having to move into our state with the idea of changing our state to meet their wants. This will be a gross misconduct on the Forest Service if they approve this to go thru. The beautiful state of Montana was built upon our beautiful rolling hills, towering mountains, National Parks, and an abundance of wildlife that if you have visited or ever lived in Montana, is simply incredible!! Approving this resort, approving the demolition of a town in order to build this resort is 100% what the people of Montana fear and don't want. Fly fishing in one of the many beautiful rivers and streams, hunting in some of the most prime hunting grounds in the United States. I moved here from Washington State because I wanted a slower way of life. I wanted to be able to enjoy my surroundings. Washington State is beautiful but is constantly being changed by people who are constantly wanting to capitalize on the tranquil nature and natural beauty of the state. This is what is happening to the state of Montana. I welcome people from other states, but not if your first idea is to change this state to be similar to where you came from, not if your first thought is how your going to capitalize, financially, off our beautiful State. The old towns, the old homesteads, the century old ranches, and the people who have lived here their whole lives are staples of this great state. Please Vote NO for this going any further. Instead, the investors to help maintain these old towns so they can be preserved for many generations to come! If we keep letting this happen, what will be left of our old town, our history, and our peaceful, laid back State!! VOTE NO!!!!
