Title:

Comments: As a Montana resident, I wholeheartedly do NOT support this project. Greedy out of stayers are coming in left and right and taking our "last best place" and turning it into the states they came from. There's a reason they left those states to come here, right? Why turn it into the place you wanted to leave? Why are we even talking about destroying historic buildings and using precious forest service land to make a resort for rich people? Have you all gone insane? Montanans love their wide open spaces, outdoor recreational areas, public lands, and nature. This is not it. This is the destruction of Montana. Please Keep Montana the Last Best Place, with the Big Sky.
