Comments: Holland lake is an absolutely beautiful lake in Montana. This summer I spent a day on the lake and was disappointed to see how much motorcraft was on the lake. It is simply too small to have boats and jet skis zipping around in the lake; especially with kayaker and paddle boarders around. I fear with new development that the lake will become even more congested and eventually ruined as a tranquil and beautiful Montana lake. Please keep Montana state land off limits for this development.
