Comments: I would have to say I object to the Holland lake lodge facility improvement. I personally enjoy being able to just go out and enjoy our mountain lakes and rivers without there being a massive facility taking up space. I also enjoy looking at and being around our Montana history whether it is in operation or not. There is something to be said and be proud of when you come across old abandoned homestead and facilities in our beautiful state. It reminds me of how this state was founded and explored when nobody else dared to come this far west. Let's not forget about this part of our history to make a few dollars.

Thank you
