Comments: I have been coming up to holland lake since I was 8 years old. It is my number one most cherished place in all of Montana. It would absolutely break my heart to see holland lake lodge turn into a giant resort, it would completely destroy what I have come to know and love over that past 20 years. The lake itself is not a large lake and building a lodge that will fill 3 times as many people as it does now will completely congest the already busy lake and surrounding trails. If this proposal does go through I for one know I will have to find a new place to fill my number one most favorite montana place spot. Please don't change holland lake
