Title:

Comments: Montana is known as Big Sky Country. It includes many towns, big and small, but our most valued land is in the "out of the way" places that allows its citizen and visitors solitude and peacefulness. Holland Lake is one of those places. It is unique with its lake, beach, waterfall, sfall, campground, historic hotel, small restaurant and gift shop. Many people visit this beautiful setting during the summer for the quiet, serene atmosphere. We do NOT need out-of-state rich people coming into our state and ruining the natural and historic beauty of Montana. PLEASE, DO NOT LET THIS PROJECT PROCEED!!!
