Comments: Do not let our of state money influence your decisions! That's a weak man's way. Stand up for the people who actually live in Montana and who will not be benefitting from this project. This is THEIR land. PUBLIC land is not yours to give away. I don't care how much money they secretly gave you. Call it lobbying or call it whatever you'd like, it is bribery and it is unacceptable behavior for people in positions of authority in this country and state. Shame on you if you attempt to use a loophole to sell off public land. If that end up being the case, I hope you never hear the end of it.
