Last name: DEVRIES

Organization:

Title:

Comments: Money Grab over nature, I chose nature. This project will be a money maker but the pollution it generates will outweigh any amount of money. Water, Air, Soil, Noise and Light pollution will be immediately relevant. Possible Radioactive pollution would probably occur because of the types of use the land will be used for. Once you change the land you can't put it back and this project would cause the surrounding land to also change!
