Comments: I have been going to Holland Lake for years. Please do not Change the character or permit the creation of a large resort that would bring so many people to make it another place that no longer provides a quiet family get away where the character is gone, changed forever. Federal land is a precious resource owned by all Americans. As such I expect the Forest Service not to sell out to a corporation and ruin our quiet, peaceful back yard. Let other visitor discover the quiet uniqueness of Holland Lake area. Not a large resort bringing.
