First name: Glenda

Last name: rothacher

Organization:

Title:

Comments: building this on a pristine lake in one of the last intact ecosystems on the planet is the last thing that should be done. Corporate interests only care about profit, not preservation. You need to stop/abandon this absurd development with severe impact into the Bob Marshall and hiking trails and impact on our pristine environment. Not to mention traffic on the Swan/Seeley Hwy which already has it's overload of traffic and deaths. Do NOT approve this development.
