Title:

Comments: I am writing this letter because I oppose the building of a hotel of the size and scope on forest service land currently located on Holland lake currently know as Holland Lake lodge. I am an avid outdoorsman and have traveled to Montana many times for hiking and fishing trips. The beauty of the landscape and nature is the reason that I return there. The impact from a project the size and scope as this proposal will ruin the area and natural surroundings. An increase in visitor traffic will be a disaster to the pristine forests as seen in other national parks during the last several years.

please reconsider this project in its current position

respectfully

Jim Vasseur
